

## ***Jersey Central Power & Light Company***

### ***Price to compare – effective 6/1/07 through 5/31/08***

Here are the Jersey Central Power & Light Company prices to compare by rate class. Your rate class is located on your electric bill or Usage Report. Use your figure to compare the prices offered by different electric generation suppliers. You will save money if you buy electricity from an electric generation supplier for less than your price to compare.

**NOTES:**

1) Summer = June through September; Winter = October through May

2) A Retail Margin of \$0.00535 per kWh will be added to the BGS Energy Charges above applicable to all kWh usage by any GS and GST customers previously identified by JCP&L with loads of 750 kW or greater as of November 1, 2006. ~~5.7.~~

3) A BGS Reconciliation charge must be added to the above BGS generation charges to determine prices-to-compare. The Reconciliation charge (which may be a positive or negative amount per kWh) will change quarterly (i.e. June 1st, September 1st, December 1st and March 1st). Separate Reconciliation charges are calculated for BGS-FP and BGS-CIEP rate classes and are posted on the Company's web site [www.firstenergycorp.com](http://www.firstenergycorp.com). The Reconciliation charge adjusts for the difference (positive or negative) between the payments to BGS suppliers and the revenues from BGS customers for Basic Generation Service.

4) Effective January 1, 2007, a Reliability Must Run (RMR) surcharge of 0.1017 cents per kWh is included in transmission charge. RMR surcharge will change annually on January 1<sup>st</sup>.
