Steps in the Selection Process

1. Program Information Session

To get started, attend an information session to learn more about the program and decide if a career as a lineworker or substation electrician is right for you. For a complete schedule of events, visit our website at www.firstenergycorp.com/psi.

2. Placement Testing

Academic readiness must be confirmed through placement testing and/or transcript review with the college.

3. Technical Evaluation

Prospective students are evaluated on a series of hands-on activities that are performed on the job.

4. Background Screening

Prospective students must successfully pass a background screening conducted by FirstEnergy consisting of criminal and driving history.

5. D.O.T. Physical

Prospective students must provide a completed Medical Examiners Certificate.

6. Qualifying School

Prospective students are evaluated on their ability to perform duties of a lineworker or substation electrician for enrollment in the PSI program.

7. Interview

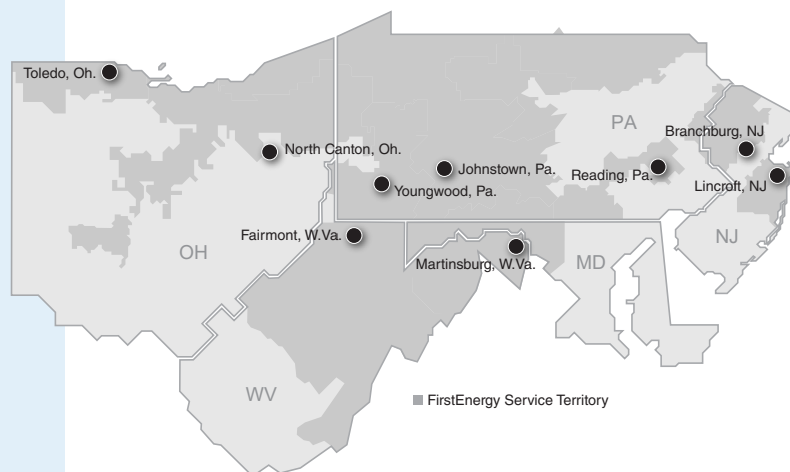

Prospective students participate in an interview with FirstEnergy management.

8. College Enrollment

Classes begin for selected students in the fall semester.

Established by FirstEnergy in 2000, the Power Systems Institute (PSI) is a unique, two-year program that combines classroom learning with hands-on training. Students who successfully complete the program earn an Associate Degree in Electric Utility Technology, which can lead to a career as a line worker or substation electrician in the electric utility industry. **Tuition, required books and lab fees paid by FirstEnergy for qualified students.**

We've teamed up with 9 colleges in our service territory to train the next generation of employees in line and substation work.
