

## Licensed Electric Generation Suppliers & Consultants

(October 2019)

To sell electric generation service in Ohio, all electric generation suppliers and aggregators must be certified by the Public Utilities Commission of Ohio (PUCO). Electric generation suppliers and aggregators must also be registered with the local utility to sell electric generation service in that utility's service area. Below is a list of suppliers who are certified with the PUCO and are registered or are pending registration to sell electric generation service in The Cleveland Electric Illuminating Company, The Toledo Edison Company and Ohio Edison Company service territories.

Contact the supplier directly to verify whether or not new customers are being accepted.
