# 1 Overview of Portfolio

Pennsylvania Act 129 of 2008 signed on October 15, 2008, mandated energy savings and demand reduction goals for the largest electric distribution companies (EDCs) in Pennsylvania. Each EDC submitted energy efficiency and conservation (EE&C) plans—which were approved by the Pennsylvania Public Utility Commission (PUC)—pursuant to these goals. This report documents the progress and effectiveness of the EE&C accomplishments for Pennsylvania Electric Company ("Penelec" or "Company") in the fourth quarter of Program Year Four (PY4) defined as June 1, 2012 through August 31, 2012, as well as the cumulative accomplishments of the programs since inception.

### Other Observations and Risks That May Affect Portfolio Success

The Company continues to have ongoing concerns about its ability to achieve the 4½ percent demand reduction target based on: (i) the magnitude of the MW goal; (ii) customers' ability and willingness to curtail sufficient load for approximately 20 days within a four month window specific to the top 100 hours; (iii) the Company's ability to accurately forecast when the top 100 hours will occur recognizing weather and economic factors; and (iv) budget constraints which limit the Company's ability to overcome forecasting and participation risks.

Regarding the budget constraint, in the implementation order for Phase II of Act 129, the Commission has recognized the imbalance among EDCs regarding the amount of funding available to meet the Phase I goals.

Additionally, given the current economic conditions and their impact on government and institutional budgets, achieving 10% of Act 129 target savings from Federal/State/local/municipal governments, school districts, institutions of higher education, and nonprofit entities may prove challenging.

Notwithstanding these difficulties, the Company is diligently working with its implementation and evaluation Conservation Service Providers ("CSPs") to evaluate current programs and identify the most effective and economic approach for achieving Act 129 targets.

# 1.1 Summary of Achievements

Penelec has achieved 86 percent of the May 31, 2013 energy savings compliance target, based on cumulative program inception to date (CPITD) reported gross energy savings<sup>1</sup>, and 84 percent of the energy savings compliance target, based on CPITD gross energy savings achieved through Quarter 1 (CPITD-Q)<sup>2</sup>, as shown in **Figure 1-1**.

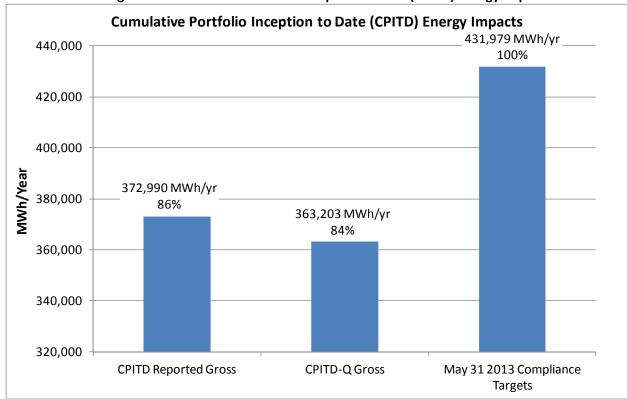

Figure 1-1 Cumulative Portfolio Inception to Date (CPITD) Energy Impacts

Penelec has achieved 50 percent of the May 31, 2013 demand reduction compliance target, based on CPITD reported gross demand reduction and 47 percent of the demand reduction compliance target

<sup>&</sup>lt;sup>1</sup> CPITD Reported Gross Savings = CPITD Reported Gross Savings through PY3 + PYTD Reported Gross Savings. All savings reported as CPITD reported gross savings are computed this way.

<sup>&</sup>lt;sup>2</sup> CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + (PY3 + PYTD) Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

based on CPITD gross demand reduction achieved through Quarter 1 (CPITD-Q)<sup>3</sup>, as shown in **Figure** 1-2<sup>4</sup>.

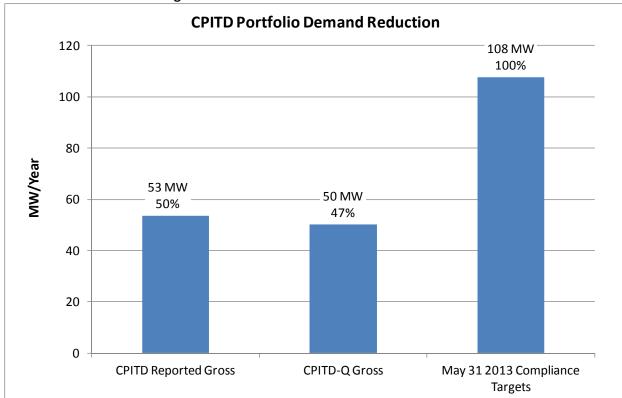

Figure 1-2. CPITD Portfolio Demand Reduction

There are 7 measures available to the low-income sector. The measures offered to the low-income sector therefore comprise 17 percent of the total measures offered. As required by Act 129, this exceeds the fraction of the electric consumption of the utility's low-income households divided by the total

<sup>&</sup>lt;sup>3</sup> CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + (PY3 + PYTD) Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

<sup>&</sup>lt;sup>4</sup> These figures only include contributions from Energy Efficiency programs.

electricity consumption in the Penelec territory. (10 percent).<sup>5</sup> The CPITD reported gross energy savings achieved in the low-income sector is 55,277 MWh/yr; this is 15 percent of the CPITD total portfolio reported gross energy savings.

Penelec achieved 118 percent of the May 31, 2013, energy reduction compliance target for government, nonprofit and institutional sector, based on CPITD reported gross energy savings, and 98 percent of the target based on CPITD gross energy savings achieved through Quarter 1 (CPITD-Q), as shown in **Figure 1-3**.

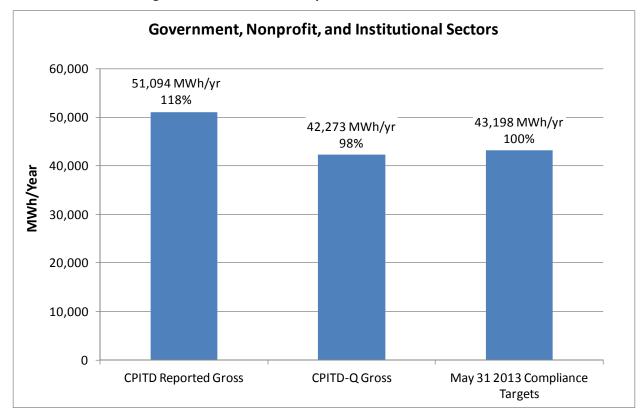

Figure 1-3 Government, Nonprofit, and Institutional Sectors

<sup>&</sup>lt;sup>5</sup> Act 129 includes a provision requiring electric distribution companies to offer a number of energy efficiency measures to low-income households that are "proportionate to those households' share of the total energy usage in the service territory." 66 Pa.C.S. §2806.1(b)(i)(G). The legislation contains no provisions regarding targets for participation, or energy or demand savings.

<sup>&</sup>lt;sup>6</sup> CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + (PY3 + PYTD) Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

# 1.2 Program Updates and Findings

- **Residential Demand Reduction Program**: The program began operation starting June 1 with curtailment events being called based on forecasted Top 100 hour days. The program will continue to operate through September 30, 2012.
- **Residential Home Energy Audits and Outreach Program**: There were no changes to this program during PY4 Q1.
- Residential Appliance Turn-In Program: There were no changes to this program during PY4 Q1.
- Residential Energy Efficiency HVAC Program: There were no changes to this program during PY4 Q1.
- Residential Energy Efficient Products Program: There were no changes to this program during PY4 Q1.
- Residential New Construction Program: There were no changes to this program during PY4 Q1.
- **Residential Behavioral Modification and Education Program:** The first of seven reports were mailed to selected participants in August 2012.
- Residential Multiple Family Program: There were no changes to this program during PY4 Q1.
- Residential Low-Income (WARM) Programs: Penelec WARM Plus and Extra Measures are on track to meet the 2013 goals prior to year-end 2012. When the 2013 energy savings goals are met, these programs will be curtailed based on available budget
- Commercial / Industrial Small Sector Equipment Program: There were no changes to this program during PY4 Q1.
- Commercial / Industrial Large Sector Performance Contracting / Equipment Program: There were no changes to this program during PY4 Q1.
- Commercial / Industrial Large Sector Demand Response Program CSP Mandatory and Voluntary Curtailment Program ("PJM Demand Response"): The program began operation starting June 1 with curtailment events being called based on forecasted Top 100 hour days. The program will continue to operate through September 30, 2012.
- Governmental / Non-Profit Street Lighting Program: There were no changes to this program during PY4 Q1.
- Governmental / Non-Profit Program: There were no changes to this program during PY4 Q1.
- Governmental / Remaining Non-Profit Program: There were no changes to this program during PY4 Q1.

# 1.3 Evaluation Updates and Findings

### Residential Demand Reduction Program

The program has run its course for the top 100 hours and the results will be evaluated in the coming months. No impacts are reported for PY4 Q1.

# • Residential Home Energy Audits and Outreach Program

This program has three distinct components: (i) conservation kits sent to customers that complete online or telephone home energy audits; (ii) direct installation of low cost measures; and (iii), comprehensive walk through audits with direct installation of low-cost measures coupled with incentives on capital cost improvements. The conservation kits have accounted for nearly all of the program impacts in PY4.

Table 1.3.1 Residential Home Energy Audits and Outreach Program Evaluation Summary

Program Component	Evaluation Activities Planned	Evaluation Activities Status
Conservation Kits	Conduct up to 23 on-site visits and several hundred online surveys.	PY4 evaluation will begin in November.
Direct Install of Low- Cost Measures	Sample once for entire PY4, conduct engineering review and verification surveys.	PY4 evaluation will begin in November.
Whole House Comprehensive Audits with Capital Cost Measures Installed	Sample once for entire PY4, conduct engineering review and verification surveys.	PY4 evaluation will begin in November.

# • Residential Appliance Turn-In Program

A tracking system review has found that some rebates in early PY4 have been entered in the tracking system with the PY2 TRM savings. A minor adjustment is expected as the "gross verified" savings will be recalculated with the PY4 TRM in the PY4 annual report.

Table 1.3.2 Residential Appliance Turn-In Program Evaluation Summary

Program Component	Evaluation Activities Planned	Evaluation Activities Status
Refrigerator		PY4 evaluation will begin in November.
Freezer		
Room air conditioner		

# • Residential Energy Efficiency HVAC Program

The sampling scheme for this program includes four qualitative strata. Evaluation activities for the strata are listed below.

**Table 1.3.3 Residential Energy Efficiency HVAC Program Evaluation Summary** 

Program Component	<b>Evaluation Activities Planned</b>	<b>Evaluation Activities Status</b>
Air Source Heat Pump	Invoice + calculation review (large sample) On-Site inspection (smaller sample)	
Ground Source Heat Pump	Invoice + calculation review (large sample) On-Site inspection (smaller sample)	PY4 evaluation will begin in
Central Air Conditioning	Invoice + calculation review (large sample) On-Site inspection (smaller sample)	November.
HVAC tune-ups	Invoice + calculation review (large sample) Telephone Verification Survey (smaller sample)	

# • Residential Energy Efficient Products Program

The sampling scheme for this program includes several qualitative strata for lighting and appliances. Evaluation activities for the strata are listed below.

**Table 1.3.4 Residential Energy Efficient Products Program Evaluation Summary** 

Program Component	Evaluation Activities Planned	<b>Evaluation Activities Status</b>
CFL Buydowns	Invoice + calculation review	
CFL Giveaways	Invoice + calculation review	
Appliances	Invoice + calculation review (large sample, stratified by appliance type)	PY4 evaluation will begin in November.
	On-Site inspection (smaller sample, focus on clothes washers)	

# • Residential New Construction Program:

This program accounts for less than 1% of the PYTD portfolio impacts.

**Table 1.3.5 Residential Energy Efficiency New Construction Program Evaluation Summary** 

Program Component	<b>Evaluation Activities Planned</b>	<b>Evaluation Activities Status</b>
New Homes	Stratified Sample  REM/Rate modeling and calculation review (largest sample)  Implementer QC Inspection review (smaller sample)  On-Site inspection (smallest sample)	PY4 evaluation will begin in November.

### Residential Behavioral Modification and Education Program

Program launch is underway. No impacts are reported for PY4 Q1.

# Residential Multiple Family Program

This program accounts for less than 1% of the PYTD portfolio impacts. The program recruits multifamily housing management or maintenance staff to distribute or install conservation kits that contain CFLs and LED night lights. The evaluation sample is stratified with multifamily housing complexes as the sampling units.

**Table 1.3.6 Residential Multiple Family Program Evaluation Summary** 

Program Component	<b>Evaluation Activities Planned</b>	<b>Evaluation Activities Status</b>
Conservation Kits	Telephone Verification Surveys	PY4 evaluation will begin in November.

# Residential Low-Income (WARM) Programs

For the PY4 evaluation, ADM will conduct billing analysis of all WARM Plus participants from PY2. The results of the billing analysis will be averaged with the 2009 and 2008 LIURP evaluation report findings to develop deemed savings for the PY4 installations.

Table 1.3.7 Residential Low-Income (WARM) Programs Evaluation Summary

Program Component	Evaluation Activities Planned	Evaluation Activities Status
WARM Plus	Billing analysis planned on PY3 participants.	PY4 evaluation will begin in November.
WARM Extra Measures	Invoice + calculation review	PY4 evaluation will begin in November.

# • Commercial / Industrial Small Sector Equipment Program

This program offers energy efficiency measures to small commercial/industrial customers. The impact evaluation utilizes stratified sampling. First, the population is stratified into qualitative strata that consist of standardized measure groups as listed below. Each qualitative stratum may contain several quantitative strata based on the expected magnitude of the impacts. The sample sizes are based on past program experience regarding the variability of the realization rates for sampled projects.

Table 1.3.8 Commercial / Industrial Small Sector Equipment Program Evaluation Summary

Program Component	Evaluation Activities Planned	Evaluation Activities Status
"Non-Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
"Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Prescriptive HVAC, Motor, and Refrigeration Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Custom Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.

# Commercial / Industrial Large Sector Performance Contracting / Equipment Program

This program offers similar measures as the Small C/I and Government Equipment programs. The evaluation approach for this program is similar to the one employed for the Small C/I program.

Table 1.3.9 Commercial / Industrial Large Sector Equipment Program Evaluation Summary

Program Component	<b>Evaluation Activities Planned</b>	<b>Evaluation Activities Status</b>
"Non-Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
"Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November for projects added in Q4.
Prescriptive HVAC, Motor, and Refrigeration Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Custom Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.

# Commercial / Industrial Large Sector Demand Response Program – CSP Mandatory and Voluntary Curtailment Program ("PJM Demand Response")

The program is operational and will generate demand reductions in PY4 Q1 and PY4 Q2. No impacts are reported for PY4 Q1.

# Governmental / Non-Profit Street Lighting Program

This program accounts for less than 1% of the PYTD portfolio impacts.

Table 1.3.10 Governmental / Non-Profit Street Lighting Program Evaluation Summary

Program Component	<b>Evaluation Activities Planned</b>	<b>Evaluation Activities Status</b>
"Street and Area Lights" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.

# • Governmental / Non-Profit Program:

This program accounts for less than 1% of the PYTD portfolio impacts.

Table 1.3.11 Governmental / Non-Profit Program Evaluation Summary

Program Component	Evaluation Activities Planned	<b>Evaluation Activities Status</b>
"Non-Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
"Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Prescriptive HVAC, Motor, and Refrigeration Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Custom Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.

# Governmental / Remaining Non-Profit Program:

This program offers similar measures as the Large and Small C/I Equipment programs. The evaluation approach for this program is similar to the one employed for the Small C/I program.

Table 1.3.11 Governmental / Remaining Non-Profit Program Evaluation Summary

Program Component	Evaluation Activities Planned	<b>Evaluation Activities Status</b>
"Non-Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
"Standard Lighting for Business" Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Prescriptive HVAC, Motor, and Refrigeration Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.
Custom Applications	Stratified sampling and on-site visits	PY4 evaluation will begin in November.

# 2 Summary of Energy Impacts by Program

A summary of the reported energy savings by program is presented in **Figure 2-1**.

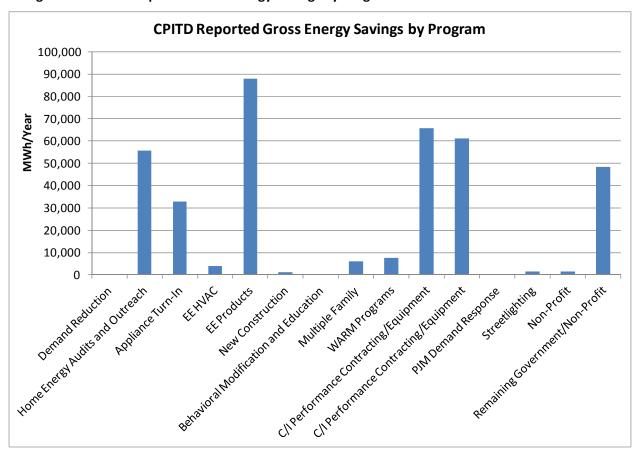

Figure 2-1. CPITD Reported Gross Energy Savings by Program

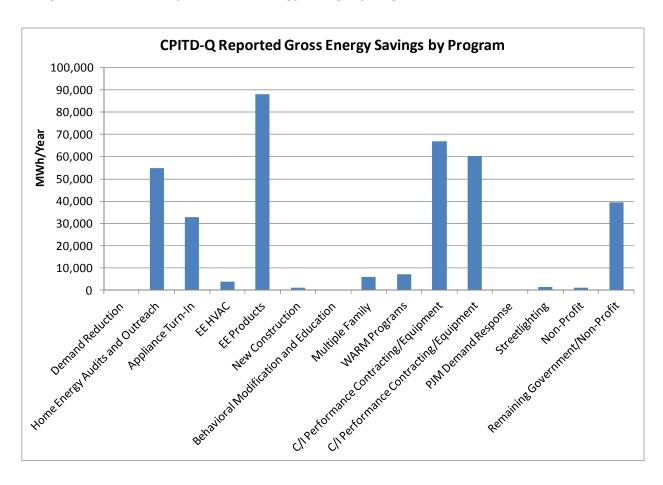

Figure 2-2. CPITD-Q Reported Gross Energy Savings by Program

A summary of energy impacts by program through PY4 Q1 is presented in Table 2-1.

Table 2-1. EDC Reported Participation and Gross Energy Savings by Program
