Reading, Pennsylvania**

NOTICE

Supplement No. 65 makes changes to Rider I.
See Sixty-Fourth Revised Page No. 2.

LIST OF MODIFICATIONS

Rider

Rider I – Hourly Pricing Default Service Rider rates have been changed and increased (See Thirtieth Revised Page 23).

Issued: July 18, 2022

Effective: September 1, 2022

RIDERS

Rider I (continued)

HP Cap-AEPS-Other Charge:

\$0.00711 per kWh representing the costs paid by the Company to the supplier for capacity, AEPS costs, and any other costs incurred by the supplier multiplied by the $HP_{Loss\ Multipliers}$. This charge is subject to quarterly adjustments.

HP Administrative Charge:

\$0.00009 per kWh representing the administrative costs incurred by the Company associated with providing Hourly Pricing Service.

HP Uncollectibles Charge:

\$0.00012 per kWh representing the default service-related uncollectible accounts expense associated with Hourly Pricing Default Service. This charge is subject to annual adjustment on June 1 of each year.

HP Reconciliation Charge:

The HP Reconciliation Charge Rate (“ E_{HP} ”) shall be applied to each kWh of Default Service that the Company delivers to Customers under this rider as determined to the nearest one-thousandth of a cent per kWh. The E_{HP} rate shall be included as a non-bypassable component billed to Customers receiving Default Service from the Company under this rider. The rate shall be calculated according to the provisions of this rider, and shall be calculated and applied equally to Customers under this rider.

For service rendered September 1, 2022 through November 30, 2022, the E_{HP} rate is as follows: (C)

HP Reconciliation Charge Rate = \$0.00312 per kWh (I)

The E_{HP} rate will be calculated at the end of each Default Service Quarter (three months ending March 31st, June 30th, September 30th, and December 31st) to be effective for the three-month period beginning on the first day of the third calendar month following the end of that Default Service Quarter (June 1st, September 1st, December 1st, and March 1st). The E_{HP} rate shall be calculated in accordance with the formula set forth below:

$$E_{HP} = ((DS_{HPExp1} + DS_{HPExp2}) - PTC_{HPRev} + DS_{HPInt}) / DS_{HPSales}$$

Where:

E_{HP} = The rate determined to the nearest one-thousandth of a cent per kWh to be applied to each kWh of Default Service delivered to Customers under this rider.
