In the Matter of the Petition of Jersey Central Power & Light Company for Approval of a Change to Its Zero Emission Certificate Recovery Charge
BPU Docket No. EO21101182

NOTICE OF FILINGS AND PUBLIC HEARINGS

PLEASE TAKE NOTICE On October 1, 2021, Jersey Central Power & Light Company ("JCP&L" or "Company") filed a Verified Petition for the review and approval of costs incurred for environmental remediation of manufactured gas plant sites pursuant to the Remediation Adjustment Clause ("RAC") of its filed tariff with the New Jersey Board of Public Utilities ("Board" or "BPU"), under BPU Docket No. ER21101155, together with supporting attachments ("Verified Petition").

The Verified Petition seeks reconciliation of the actual costs and collections during 2020 under the RAC, which is a component of the Societal Benefits Charge of JCP&L's filed tariff. The Verified Petition also provides for an assessment of the need for changes in the level of collections under the RAC. JCP&L is requesting to increase collections under Rider RAC, which funds the remediation of former manufactured gas plant sites, by approximately \$1.957 million annually. The Company proposed that the change in rates would become effective on January 1, 2022, or on such date as the Board may determine.

The annual percentage change in rates, if any, will vary according to the applicable rate schedule and the level of the customer's usage. Copies of the Verified Petition, together with supporting attachments, are available for inspection at the Company's regional headquarters at 300 Madison Avenue, Morristown, New Jersey 07962, and 101 Crawford's Corner Road, Building #1, Suite 1-511, Holmdel, New Jersey 07733, or on the Company's website at https://www.firstenergycorp.com/jersey_central_power_light/regulatory.html. The Verified Petition, together with supporting documents, is available through the website here, <https://publicaccess.bpu.state.nj.us/> where you can search by docket number. You can also review the file at the Board located at 44 South Clinton Avenue, 1st Floor, Trenton, New Jersey 08625-0350, with an appointment. To make an appointment, please call (609) 913-6298.

The following comparisons of present and proposed rates will permit customers to determine the approximate net effect upon them of the proposed increase in charges of \$1.957 million annually. Any assistance required by customers in this regard will be furnished by the Company upon request.

(1) Rates effective 10/1/2021 (2) Proposed rates effective TBD

The Board, in its discretion, may apply all or any portion of a rate adjustment to other rate schedules, or in a different manner than what JCP&L has proposed in its filing. Accordingly, the final rates and charges will be determined by the Board in these proceedings and may be different from what JCP&L described and provided in its Verified Petition.

Notice of this filing, together with a statement of the effect thereof on customers, is being served upon the clerk, executive, and/or administrator of each municipality and county within the Company's service areas. Such notice has also been served, together with the supporting attachments, upon the office of the New Jersey Division of Rate Counsel ("Rate Counsel"), who will represent the interests of ratepayers in these proceedings.

PLEASE TAKE FURTHER NOTICE that, in October 2021, JCP&L filed with the Board a Letter Petition ("Letter Petition") seeking the Board's approval to refund

excess Zero Emissions Certificate Recovery Charge ("ZEC Charge") collections over a 12-month period commencing January 1, 2022, via the Zero Emissions Certificate Reconciliation Charge ("ZECRC") for the Energy Year 2021.

The Company is also proposing a change in the ZECRC to adjust the refund of excess collections from Energy Year 2021. As a result of this adjustment, the proposed ZECRC would increase from (\$0.000158) per kilowatt-hour (w/o Sales and Use Tax ("SUT")) to (\$0.000089) per kilowatt-hour (w/o SUT). Because the 2021 ZECRC refund rate is less than the 2020 ZECRC refund rate, customers' bills will increase.

The approximate effect of the proposed changes on monthly electric bills for residential customers with various usage, as well as class average per customers for all rate classes, if approved by the Board, is illustrated in the table below.

Any rate adjustments with resulting changes in bill impacts found by the Board to be just and reasonable as the result of the Company's filing may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:2-21 and for other good and legally sufficient reasons to any class or classes of customers of the Company. Therefore, the described charges may increase or decrease based upon the Board's decision.

The Letter Petition is available for review online at the JCP&L website: www.firstenergycorp.com/jersey_central_power_light/regulatory.html. The Letter Petition is available through the website here, <https://publicaccess.bpu.state.nj.us/> where you can search by docket number.
