

NOTICE TO JERSEY CENTRAL POWER & LIGHT COMPANY CUSTOMERS

In the Matter of Jersey Central Power & Light Company's Verified Petition to Establish a New Rate Component of Its Rider RRC – RGGI Recovery Charge ("Rider RRC") for Costs Incurred Pursuant to the Mandated Community Solar Program ("JCP&L Initial CSP Rate Filing")
BPU Docket No. ER21060872

PLEASE TAKE NOTICE that, on June 1, 2021, Jersey Central Power & Light Company ("JCP&L" or "Company") filed a verified petition with the New Jersey Board of Public Utilities ("Board" or "BPU") to establish a cost recovery mechanism for the Community Solar Program ("CSP" or "CS Program") and a new rate component of the Company's Rider RRC – RGGI Recovery Charge ("Rider RRC"), the CSP Rate ("2021 CSP Petition"). As proposed in the 2021 CSP Petition, the CSP Rate is intended to recover the costs and expenses incurred by the Company as a result of its implementation and compliance with the Program established pursuant to N.J.S.A. 48:87.11 and the Board's Orders associated with same. The CS Program allows customers of an electric public utility to participate in a solar energy project that is located remotely from their properties, and to receive credits on their electric bills based on their participation. JCP&L proposed to recover the Company's costs for its implementation and compliance with the Program, including, but not limited to, the costs of modifying JCP&L's billing system to implement the Program (including any costs associated with implementing changes necessary to accommodate consolidated billing, if ordered by the Board), the full value of the Community Solar Credits provided to customers, and any incremental administrative costs associated with the Company's implementation and compliance with the Program, to the extent not otherwise recovered in rates. The proposed CSP Rate is designed on a dollar per-kilowatt hour ("kWh") basis, applicable equally to all rate classes.

The proposed initial CSP Rate for all rate classes is \$0.000000 per kWh. JCP&L is requesting that the Company be authorized to defer any costs incurred to date for the Company's implementation and compliance with the Program, to the extent not already included in rates, for inclusion in rates as part of a future Rider RRC filing. As proposed, the CSP Rate would be updated annually as part of the Company's Rider RRC filing.

The Board has statutory and regulatory authority to approve and establish rates it finds just and reasonable. Therefore, the Board may determine and establish these charges at levels other than those proposed by JCP&L.

The 2021 CSP Petition was filed with the Board and a copy was also served upon the New Jersey Division of Rate Counsel ("Rate Counsel"). Copies of this 2021 CSP Petition and supporting attachments are available on JCP&L's website at: https://www.firstenergycorp.com/jersey_central_power_light/regulatory.html.
