

West Virginia Solar Program Terms and Conditions

1. Customer agrees to take additional service from utility for solar power and solar renewable energy credits under the Utility's Schedule VRER (Voluntary Renewable Electricity Rider) beginning once Utility's solar generation is producing expected to be on or about December 2023.
2. Term is agreed to be 12 months from the start date (on or around December 2023) and shall automatically renew at the end of the Term on a year-to-year basis unless cancelled thereafter by Customer or Utility with at least 30 days' notice.
3. Amount/Quantity: The amount of solar power/solar renewable energy credits ("SREC") to be procured in the customer's name is described on the declaration.
4. Price shall be a specified monthly fee recurring monthly until cancelled
5. The cost of Schedule VRER is in addition to the cost incurred under the regular rate schedule Customer procures power.
6. SRECs are not transferrable and will be retired annually by the Company. A letter will be sent to the Customer annually indicating how many SRECs were retired by the Company on behalf of the Customer.

This Addendum is a contractual commitment for the Customer to procure solar power and RECs and for the Utility to sell the same as set forth above, subject to Public Service Commission of West Virginia final approval. This agreement is in full force and effect from the date listed below and is legally binding but is subject to final approval of construction of the solar projects by the PSC.
