EmPOWER MARYLAND

The EmPOWER Maryland charge funds programs that can help you reduce your energy consumption and greenhouse gas emissions and save you money. Since the inception of the EmPOWER Maryland program in 2008, the programs have saved $14.5 billion on installed measures at a cost of $4.1 billion. In addition to new program costs, this charge includes paying off the uncollected costs that were accrued over time by programs required by the EmPOWER statute and authorized by the Commission. In accordance with House Bill 864, the uncollected amounts will be fully paid by the end of 2032.

For more information, including how to participate in these valuable programs, go to **www.firstenergycorp.com/save_energy/save_energy_maryland.html**.
