

TAKE THE GUESSWORK OUT OF YOUR ENERGY BILL

Energy Bill Watch Alerts are now available for customers with smart meters, offering timely updates that help you track electricity use and estimated costs throughout the month.

ENERGY BILL WATCH ALERTS are designed to help you better understand your usage and projected costs throughout the month. You will receive two helpful email alerts during each billing cycle:

10-DAY ALERT

Tells you how much electricity you've used in the first 10 days of the billing period and the estimated cost so far.

20-DAY ALERT

Provides usage and estimated cost through day 20.

You can also register to receive the following text or email notifications:

AVERAGE DAILY ALERT – Tells you when your electricity usage reaches a dollar amount you choose during the billing period.

THRESHOLD ALERT – Compares your average usage per day to the previous billing period and/or the same period in the previous year.

Register for these alerts, receive the 10- and 20-day alerts via text message or opt out anytime in your online account at firstenergycorp.com/login.
