A polar bear is sitting on a large, curved block of ice. The bear is looking towards the left. The background is a soft, blue-tinted sky. The overall scene is cold and wintry.

DON'T GET LEFT IN THE COLD

Help is available now.

Cold weather is on its way – and so are winter heating bills.

The Low-Income Home Energy Assistance Program (LIHEAP) helps low-income families pay their heating bills. Beginning November 1, 2017, customers in low-income households can apply for the following:

LIHEAP Cash Program Provides a payment that is applied directly to a customer's electric account. A past-due notice is not required.

LIHEAP Crisis Program Offers grants to help customers avoid having their electric service shut off when overdue bills aren't paid. Electric service can be restored in cases when power is already shut off.
