Affordable Payment Plans

Depending on the size of your electrical projects, costs can add up. Rather than paying the charges all at once, our affordable payment plans give you up to 36 months to pay, if eligible.* Plus, you can rest easy knowing there are no down payments or hidden fees. It's our way of assuring you that there will be no surprises on the day of service.

Protecting yourself and your family from the dangers of faulty wiring has never been easier.

*Contact a customer service representative to determine if you are eligible for a payment plan.

These programs can be withdrawn anytime without prior notice. FirstEnergy coordinates all service with its network of recommended, registered independent contractors, providing contract and other administrative support services. FirstEnergy is not a registered contractor and does not perform the service. All services are performed by an independent contractor. A postcard containing the recommended contractor's name and registration number will be provided to the customer at the time that a request for an estimate is made. FirstEnergy Corp. or its affiliated companies, including the electric utility that provides your electric distribution service (hereafter referred to, collectively, as "FirstEnergy Companies") do not provide any warranty on the services performed and are not liable for damages or injuries that may arise as a result of the services provided. The customer is not required to purchase the good or service from FirstEnergy Companies, and the good or service may be obtained from other suppliers. A customer's decision to receive or not receive the good or service from FirstEnergy Companies will not influence the delivery of competitive or non-competitive retail electric service to that customer by the FirstEnergy Companies.

How can we help with your electrical service needs?

Our highly trained professional contractors offer expertise in all types of electrical work to help keep your home and family safe. Services include:

- Repairs, remodels and upgrades
- Home safety inspections
- Wiring work, plug and switch installation
- Interior and exterior lighting
- Circuit breakers, fuses and meters
- Whole-house surge protection installation
