Here's how it works:

Ohio Edison • The Illuminating Company • Toledo Edison

1. An energy auditor completes an audit, then installs up to \$200 of energy-efficient products in your home at no additional cost.
2. Simply install equipment that saves a minimum of 350 kilowatt-hours (the equivalent of 11 LED light bulbs) to receive the instant rebate on the cost of the audit.
3. Inspired to make more upgrades? Your auditor can help you prioritize the appropriate projects for your home and show you how you can earn rebates to make the updates more affordable.
