Affordable Payment Plans

Depending on the size of your electrical projects, costs can add up. Rather than paying the charges all at once, our affordable payment plans allow you to add the charges to your monthly electric bill for up to 36 months, with approved credit and contingent upon our ability to add the program charge to your monthly electric utility bill. Plus, you can rest easy knowing there are no down payments or hidden fees. It's our way of assuring you that there will be no surprises on the day of service.

Help protect you and your family by reducing the risk of faulty wiring.
