EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to [energysaveMD.com](https://energysaveMD.com).

By participating in energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency or peak demand reduction measures for which incentives were provided by the Company.

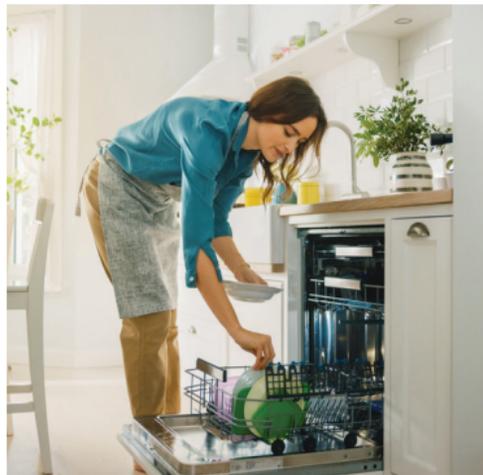

# Look for the ENERGY STAR® and Save

When you purchase an appliance, it has two costs: the cost to buy it and the cost to operate it. ENERGY STAR certified appliances can help you save money by reducing your energy use without sacrificing performance. Just consider these facts:

- ENERGY STAR certified dishwashers are 12% more energy efficient than standard models.\*
- ENERGY STAR certified water coolers and dehumidifiers are 30% more energy efficient than standard models.\*
- Many electronic products continue to draw power, even when they're turned off. An advanced power strip can help you reduce the power used by these products.

ENERGY STAR appliances can save you more by reducing your energy use in the long run. Learn more at [energysavemd-home.com/July21](https://energysavemd-home.com/July21)
