Fall into Savings with an HVAC Tune-Up

Did you know that, according to ENERGY STAR[®], nearly half the average home's energy use is attributed to heating and cooling? Regular HVAC tune-ups can make your system more efficient, help it last longer, and lower your energy costs. Plus, you can earn a \$50 rebate from FirstEnergy!

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company.

Schedule your tune-up today. energysavePA.com/rebates | 855-897-6394

Make the Smart Choice for your Home Energy Needs

Take Advantage of a \$50 Rebate on an ENERGY STAR® Certified Smart Thermostat

Enjoy a \$50 rebate on ENERGY STAR certified smart thermostats, which give you control over your home's heating and cooling needs. ENERGY STAR certified smart thermostats save you even more money through their "smart" features, including:

- Low-power standby mode when inactive
- Learned temperature preferences
- Easy scheduling capabilities

Take advantage of energy-saving rebates from FirstEnergy's Pennsylvania utilities at energysavePA.com/rebates.
