**CLEAN ENERGY Advantage**

## Is your old air conditioning system costing you more & working less?

A properly working air conditioning system does more than cool your home. It helps **remove humidity and improve air quality**. If your central air conditioning unit is more than 12 years old, replacing it with an ENERGY STAR® certified model could:

- Cut your cooling costs by up to 30%\*
- Improve air circulation and air cleaning\*
- Get better dehumidifying performance\*

Plus, get discounted prices on ENERGY STAR certified high-efficiency HVAC equipment through our participating contractors.

Rebate amount is based on the predicted energy savings for selected energy efficiency home improvements (maximum of \$7,500 per home). Discounts are available to Maryland residential customers of Potomac Edison on qualified products purchased between January 1, 2021 and December 31, 2023. Additional terms and conditions apply. See [energysaveMD-home.com](http://energysaveMD-home.com) for details. EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to [energysaveMD.com](http://energysaveMD.com). By participating in energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency or peak demand reduction measure for which incentives were provided by the Company. Potomac Edison, their parents, subsidiaries, employees, affiliates and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
