

FEOC Information Request

To submit an FEOC information request for a previously submitted interconnection request please send an email to pe-md_interconnection@firstenergycorp.com with the Subject Line “FEOC Information Request – *(your interconnection request number)*” Your interconnection request number will begin with either PE11 or GEN-CS.

In the body of the email please provide the following information:

- Requestor’s name
- Requestor’s phone number
- Requestor’s email address
- Application/Project Name
- Interconnection request number
- Interconnection work request number
- Fully Executed Interconnection Agreement

Please note that project design must be completed and equipment procurement must be underway to request this information. Potomac Edison will provide as much information as is available at the time of the request. FirstEnergy sources some stock items from several suppliers. Depending on the project scope, procurement progress, and construction stage, not all information may be available at the time of the request.
