CASE NO. 9064

To: Parties of Record and Interested Persons

On December 22, 2009, Technical Staff ("Staff") of the Public Service Commission ("Commission") filed a proposed amended version of the Model 2010 Request for Proposals for Full Requirements Wholesale Electric Power Supply ("Model RFP") which modifications reflected the consensus proposal for implementing contingency bidding in the Standard Offer Service ("SOS") procurement process.

At its January 13, 2010 Administrative Meeting, the Commission considered the Report. There were no objections to the proposed modification to the Model RFP lodged at the Administrative Meeting or otherwise. Accordingly, the Commission approved the

Model RFP as modified to permit contingency bidding to be implemented in the SOS procurement solicitation to be conducted in April 2010.

IT IS THEREFORE, this 19th day of January, in the year Two Thousand Ten by the Public Service Commission of Maryland,

ORDERED: (1) That the consensus proposal to revise provisions to implement a contingency bidding structure within the Model 2010 Request for Proposals for Full Requirements Wholesale Electric Power Supply as submitted by Staff on December 22, 2009 is approved, subject to the understanding that the Commission may alter the Standard Offer Service schedule and process to comply with its decision in Case No. 9117 or otherwise.

By Direction of the Commission,

/s/ Terry J. Romine

Terry J. Romine
Executive Secretary
