

Bidder Checklist

Section V of the Request For Proposals (“Proposal Content Requirements”) specifies all requirements of the bid proposal. This includes additional information beyond that which is provided through the Excel-based Standard RFP Response Form. Prospective bidders should familiarize themselves thoroughly with Section V before submitting their proposals.

Bidder should provide the additional requested information in a generally accepted format (e.g. Adobe PDF or Microsoft Word) of the bidder’s choosing.

The Independent Evaluator (“IE”) has prepared the following detailed checklist, which bidders may find useful in preparing their final proposal package, which is due by December 5, 2022 at 12:00PM Eastern time. For several of the items in the table below, we recommend that the response be provided in a separate document.

<i>Proposal Content Requirement</i>	<i>Guidance from the IE</i>
V.1 – Standard RFP Response Form	The Excel-based RFP Response Form (Appendix 3) is available on the Supplier Documents page. Each proposal should complete the RFP Response Form in its entirety.
V.2 – Executive Summary	Bidder to provide a brief summary of the project in a separate document.
V.3 – Name and Location	Bidder to provide the name and location of the project in a separate document.
V.4 – Net Capability of Generating Facility	Bidder will provide the nameplate capacity of the facility on the Standard RFP Response Form. Bidder should specify the net capacity by calendar month in a separate document.
V.5 – PPA Initial Delivery Date	Included on the Standard RFP Response Form.
V.6 – Generation Technology	Bidder to describe the generation technology and key equipment in a separate document.
V.7 – PJM Capacity	Included on the Standard RFP Response Form.
V.8 – Anticipated Facility Output	Bidder to provide the requested information in a separate document. In most cases, providing a sufficiently detailed

<i>Proposal Content Requirement</i>	<i>Guidance from the IE</i>
	completed engineering study should satisfy the requirements of Section V.8.
V.9 – Counterparty Financial Information	Bidder will have previously provided financial information in the pre-qualification application and in most cases will not need to provide additional information in response to this request.
V.10 – Other Contractual Commitments	Bidder to respond in a separate document.
V.11 – Project Development Plan	Bidder to provide the requested information in a format (e.g. Adobe PDF or Microsoft Word) of the bidders’ choosing. The information provided should be sufficiently detailed for the IE to properly assess the project’s development status and development risk at a reasonable level of detail. The bidder response to Section V.11 should include the requested documents listed in that section as attachments to its response.
V.12 – Power Purchase Agreement	Bidder to confirm, in a separate document, that it takes no exception to the PPA terms as provided in Appendix 1 to the RFP.
V. 13 – Asset Performance	Bidder to specify and articulate performance metrics and guarantees in a separate document.
V. 14 – Permits	Bidder to provide the requested information in a separate document.
V. 15 – PPA Pricing	Included on the Standard RFP Response Form.
V. 16 – Land Use and Other Environmental Considerations	Included on the Standard RFP Response Form; bidder may choose to provide supplementary documentation, though this is not required.
V. 17 – Community and Other Considerations	Included on the Standard RFP Response Form; bidder may choose to provide supplementary documentation, though doing so is not required.
